CSTD Working Group on Enhanced Cooperation (2016) Nomination Form
Internet technical and academic community

PART-2 [Supplementary Questions - TO BE COMPLETED BY THE NOMINEE]

Please provide responses to the following supplementary questions that are specific to the Internet technical community (including the academic computer network research community), explicitly indicating any that are not applicable.

1. **Please summarize your technical background and experience. You may include relevant references.**

2. **Please describe your prior and current involvement in, participation in, and influence with Internet-related technical research or policy formulation.**

3. **Please describe any past or current involvement you have had (as part of the Internet technical and academic community) in work or initiatives based on the principles of enhanced cooperation (as described in the Tunis Agenda).**

4. Please describe Internet-related activities that do not fall into the categories of items 2 or 3 above that you believe are relevant to the CSTD effort.

5. Please provide evidence that you know how the Internet works at a level that permits you to discuss how it is different from, e.g., traditional telephony or broadcast media.

6. What specific issues relating to the Internet technical community do you see as being at stake in the CSTD Working Group on Enhanced Cooperation?

7. Do you expect to be able to participate in this working group's activities without additional funding sources?
